

Position Statement

Subject: **CNIO Advisory Panel commitment to NMAHP digital leaders**
Approval Date: 29/04/2025
Author: Digital Health Networks CNIO Advisory Panel

In light of the recent announcements regarding the abolition of NHS England and the significant structural changes ahead, the CNIO Advisory Panel reaffirms its commitment to supporting and advocating for Nursing, Midwifery and Allied Health Profession (NMAHP) digital leaders across the country.

As a nationally connected and clinically grounded group, the CNIO Advisory Panel recognises the uncertainty that such a transition may bring. During this period of organisational change, we stand as a consistent and stabilising presence for NMAHP digital leaders, providing peer-led support, strategic guidance, and a collective voice to ensure that clinical digital leadership remains strong, visible, and valued.

We acknowledge the immense contribution of the current multi-professional digital clinical leaders within NHS England, and we are committed to working alongside them to maintain momentum, continuity, and alignment of digital priorities that directly impact patient care and frontline practice.

The CNIO Advisory Panel is well-positioned to act as a bridge between local, regional, and national digital health agendas, ensuring that the voices of NMAHPs continue to inform and shape the future of digital health and care delivery.

We now call upon NMAHP digital leaders – whether working in provider organisations, systems, or nationally – to stay connected, continue to lead with purpose, and engage with the CNIO Advisory Panel. Through shared learning, collaboration, and advocacy, we can ensure that the voice of clinical practice continues to shape digital transformation, even in times of change.
